

# Science Assessment Grid : Eating and Digestion : Year 4

Eating and Digestion																				
Group: <input style="width: 100%;" type="text"/>		Year: <input style="width: 100%;" type="text"/>		Term: <input style="width: 100%;" type="text"/>																
Science																				
Lesson 1	Can children explain why all animals, including humans, need to eat?																			
	Can children identify animals that are carnivores, herbivores and omnivores?																			
	Can children classify animals according to their diet?																			
Lesson 2	Do children know what the terms 'producer' and 'consumer' mean in relation to food chains?																			
	Can children interpret food chains?																			
	Can children construct food chains?																			
Lesson 3	Can children identify the different types of human teeth?																			
	Do children know that the shape of teeth make them useful for different purposes?																			
	Can children suggest reasons why animals might have different types of teeth?																			
Lesson 4	Do children know that humans have two sets of teeth during their lifetime?																			
	Can children explain why it is important to look after teeth?																			
	Can children describe ways in which people can make sure their teeth stay healthy?																			
Lesson 5	Can children ask relevant questions?																			
	Can children use different sources of information to find the answers to questions they have asked?																			
	Can children name some of the organs associated with the digestive system?																			
Lesson 6	Can children name the organs associated with the digestive system?																			
	Can children describe the basic functions of the organs associated with the digestive system?																			
	Can children describe the process of digesting food?
